

Why Oh Why

(Author Publisher PRO)

Cedar Hill – Title of Release © year

I set here tonight and stare out my window
Think of the days when we were young
When we were so in love with each other
But now that love is forever gone

Chorus

Why oh why did you walk out on me
When I have always been there for you
Why o why did you leave me so lonely
With a poor heart that breakin in two

Many is times we strolled in the moonlight
And planed our future and the way things would be
But now the futures a thing of the past
For you've found another and you want to be free

Chorus
